## **About SBS Philippines Corporation**

SBS Philippines Corporation is one of the leading chemical trader-distributor in the Philippines supplying a diverse customer base of more than 1,800 customers nationwide with 91 chemical products sourced from more than 500 suppliers.

The Company was recently admitted on the Main Board of the Philippines Stock Exchange with its shares traded under the ticker symbol "SBS".

## **Our Business**

The Company offers a comprehensive selection of chemical products to service the following industries: food ingredients, industrial, agribusiness, feeds and veterinary care, pharmaceutical, personal care and cosmetics.

It also provides value-added service to its customers by providing logistics management in sourcing, procuring, warehousing and transporting the chemical products and materials. It competes on the basis of price, product diversity, supply availability, product reliability and market compatibility.

The Company provides a one-stop-shop business solution that allows for choice and convenience to its customers. The Company engages in multiple sourcing from different chemical producers and sells a diverse and broad range of chemical products and ingredients.

Its highly diversified portfolio of products allows the Company to bundle and combine multiple orders of different products in smaller volumes, providing for a convenient stable source and "one-stop shop" single partner for the various chemical needs of its market customers. Clients are offered a full line of chemical and ingredient products on stock for which they can order in great variety and programmed for dispatch and delivery in accordance with their requirements.

The Company was incorporated on 17 July 2001 and was formerly known as Sytengco Philippines Corporation. The Company's principal place of business is at No. 10 Rest Haven Street, San Francisco Del Monte, Quezon City, Philippines.

Currently, the Company maintains a network of 15 distribution warehouses in five (5) sites in the Greater Manila Area and province of Bulacan. These storage facilities have a combined floor area of approximately 46,000 square meters and a storage capacity of over 18,000 metric tons. Such warehousing and distribution capabilities provide for opportunities for collaborations in supply chain optimization with its business partners.

## **We Understand Your Needs**

SBS Philippines Corporation has long been a key partner of the mining industry, with experience catering to the needs of gold, silver, tin, nickel, zinc, copper, coal, lead, vanadium, uranium, rare earth and oil & gas miners and processors.

## **Extensive Range of Quality Products**

SBS Philippines Corporation is a one-stop-shop for mining reagents, refining and forming chemicals with more than 3000 products available.

SBS Philippines Corporation provides a one-stop-shop business solution that allows for choice and convenience to its customers.

# PRODUCT LINES

SBS PHILIPPINES CORPORATION supplies more than 3,000 different chemicals and ingredients to clients throughout the Philippines.

Our range is sourced from quality raw material manufacturers worldwide and supplied to clients in different industries.

We know and understand the complexities of your market and act to ensure you receive the best products to allow your business to thrive. The range of services includes bulk commodity chemicals, where our efficient logistics network and broad sourcing ability make the difference to specialty ingredients, where innovation and knowledge are essential.

Clients have the choice of solid, liquid, and gaseous forms and a broad range of secure packaging and tailored transportation options designed to maximize efficiency, product integrity, and safety. From small sachets to bags, bulk bags, bulk powder to carboys, drums, IBC's/ Totes to liquid bulk tankers, SBS Philippines Corporation offers the flexibility and convenience that your business demands.

## **Food Ingredients**

SBS Philippines Corporation continues to add value to the Agribusiness, Feeds and Veterinary Care sectors by offering an extensive range of raw materials for formulators and manufacturers. We continually seek new sources of materials to improve the quality of our customers' products and lower their costs.

## **Pharmaceutical**

Our careful selection of quality products from all corners of the globe allow our stakeholders

in the Pharmaceutical and Nutraceutical sectors the freedom to tailor their products and take advantage of innovative technologies and trends.

## **Personal Care and Cosmetics**

Our careful selection of quality products developed through new technologies from all the corners of the globe allow formulators in the Personal Care and Cosmetics sectors to tailor their products according to the needs of their clients.

## **Home Care & Detergents**

Our detergent customers use our quality materials to manufacture products for Industrial, Institutional, and Consumer markets.

## **Water & Wastewater Treatment**

For the safest and cleanest water, we supply quality water treatment chemicals such as:

- Flocculants
- pH adjusters
- Filter media
- Scale inhibitors
- Fluoridation additives
- Organophosphates and biocides
- Ion Exchange Resins

## **Agriculture & Sustainable Bio-Farming**

SBS Philippines Corporation continues to add value to the supply chain with critical relationships with the Crop Nutrition, Horticulture, and Protection sectors. Our product range includes:

- Raw materials and Trace Elements
- Improvers for broad acre and drip delivery
- Growth mediums for Horticulture and Potting soils.

- Herbicides, fungicides and other foliar applications.

### Building & Construction

SBS Philippines Corporation products are utilized in the manufacture and treatment of: Asphalt, Bricks, Concrete, Insulation, Timber, Fiberglass and more.

### Animal Health & Nutrition

Our wide range of products plays a vital role in the stock feed, aquaculture, pet food, and veterinary health markets. We provide;

- Amino acids and proteins
- Feed improvers, enzymes and preservatives
- Vitamins, trace elements and minerals

### Industrial

Industrial chemicals are widely applied in a variety of sectors, and there is no question that these chemicals are essential to industrial production and considerably improve our quality of life. SBS Philippines Corporation has a long history of delivering high-quality raw materials all areas of the industry.

### Tanning & Textiles

Our experienced personnel makes SBS Philippines Corporation a market leader in sourcing and distributing commodity chemicals to the tanneries and textile plants of the region.

### Surface Coatings

An integral supplier of raw materials used in the Surface Coating industry, including:

- Fillers
- Pigments
- Solvents
- Oxides
- Amines
- Acids
- Glycols and resins

### Mining, Oil & Gas

SBS Philippines Corporation has long been a key partner of the mining industry, with experience catering to the needs of gold, silver, tin, nickel, zinc, copper, coal, lead, vanadium, uranium, rare earth and oil & gas miners and processors.

### Metallurgy

SBS Philippines Corporation is active in the Steel, Galvanising, Refractory and Electroplating Industries.

### Plastic, Rubber & Foam

Through our trusted partners in the plastics and rubber industry, we deliver real value and a fresh approach to meeting our customer's needs in a dynamic market. Our principals are leaders in their respective products, allowing us to deliver the broadest range of quality materials at a price that will enable you to thrive.
