## About SBS Philippines Corporation

SBS Philippines Corporation is one of the leading chemical trader-distributor in the Philippines supplying a diverse customer base of more than 1,800 customers nationwide with 91 chemical products sourced from more than 500 suppliers.

The Company was recently admitted on the Main Board of the Philippines Stock Exchange with its shares traded under the ticker symbol "SBS".

## Our Business

The Company offers a comprehensive selection of chemical products to service the following industries: food ingredients, industrial, agribusiness, feeds and veterinary care, pharmaceutical, personal care and cosmetics.

It also provides value-added service to its customers by providing logistics management in sourcing, procuring, warehousing and transporting the chemical products and materials. It competes on the basis of price, product diversity, supply availability, product reliability and market compatibility.

The Company provides a one-stop-shop business solution that allows for choice and convenience to its customers. The Company engages in multiple sourcing from different chemical producers and sells a diverse and broad range of chemical products and ingredients.

Its highly diversified portfolio of products allows the Company to bundle and combine multiple orders of different products in smaller volumes, providing for a convenient stable source and "one-stop shop" single partner for the various chemical needs of its market customers. Clients are offered a full line of chemical and ingredient products on stock for which they can order in great variety and programmed for dispatch and delivery in accordance with their requirements.

The Company was incorporated on 17 July 2001 and was formerly known as Sytengco Philippines Corporation. The Company's principal place of business is at No. 10 Rest Haven Street, San Francisco Del Monte, Quezon City, Philippines.

Currently, the Company maintains a network of 15 distribution warehouses in five (5) sites in the Greater Manila Area and province of Bulacan. These storage facilities have a combined floor area of approximately 46,000 square meters and a storage capacity of over 18,000 metric tons. Such warehousing and distribution capabilities provide for opportunities for collaborations in supply chain optimization with its business partners.

## We Understand Your Needs

We deliver real value and a fresh approach to meeting our customer's needs in a dynamic market, especially in the Plastics, Rubber & Foam industries.

## Extensive Range of Quality Products

Our current product line comprises polymers, resins, polyols, silanes & isocyanates, fillers, pigments, curatives & antioxidants, process aids, and a variety of plasticizers.

SBS Philippines Corporation provides a one-stop-shop business solution that allows for choice and convenience to its customers.
